Knowledge Organization Systems (KOS)

- ▶ **Many KOS** exist: DDC, GND, LCSH, Getty-Thesaurus. . .
BARTOC.org lists > 1.600 KOS
- ▶ **Few Concordances** (mappings between KOS) available

Help to find resources indexed with specialized KOS:

DDC \rightarrow *Wikidata* \rightarrow *Museum-Classification* \Rightarrow *Resource*

However:

- ▶ 1-to-1 mappings (“sameAs”) only for simple cases
- ▶ Creation of mappings takes time
- ▶ Metadata about mappings required

Project coli-conc

1. Tool to facilitate manual creation/checking of mappings
2. Registry to facilitate reuse of mappings
